Data sheet
Automatically braked winch 1180KG

The series model navijakov with automatickou brake is designed for demanding pracovné podmienky, where important safety and precision. Wheel centre made z vysoko durable material is combined with rubber tread, which minimises vibrations and ensures smooth movement. Use guličkových ložísk v kritických bodoch ensures low údržbu and high load capacity až do 1180 kg, while automatická brake zabraňuje nežiaducim pohybom nákladu. Tento navijak is suitable for industrial haly, sklady and stavebné priestory, where potrebná spoľahlivá manipulácia with ťažkými predmetmi. Konštrukcia durable to water and prachu allows use aj v demanding vonkajších conditions.

Specifications

Load	1180 kg

When choosing the right wheel, please note the technical conditions and step-by-step guide in our catalogue (p. 4-17) or visit our website https://sk.renost.net/en/. Note: Load capacity refers to dynamic load according to STN EN 12532 (speed: 4 km/h, height of obstacles = 2,5% of the wheel diameter for tread hardness ≥ 90° Shore; height of obstacles = 5,0% of the wheel diameter for tread hardness < 90° Shore; temperature 17°C-23°C; humidity= 40%-70%).
